FITTINGS FOR YOUR HOME!

In this catalogue you will find
... a colorful somersault . the
fragrance of summer . a child's
laugh . a loving hug . a floral
bouquet . a hand reaching out
to you . the scent of fresh-cut
grass . the smell of summer rain
on a hot asphalt . the sound of
snowflakes when it snows .
shooting stars more than you
imagine . a jump into the blue
sea - and a trace of happiness!

***We all walk each other home!
- Rumi -***

We are thankful and proud that you hold our 2023 edition of product news in your hands.

But it is not only about the things we do - it is also about the ,why'.

We live in a world of radical changes and disruptions - and for us the enviroment crisis is the fundamental challenge of our times - maybe of all times.

We believe in circular economy - and we think that plastic (Post consumer recycled or Bio) is and will be the material of the future - the material which can bring us to a real circular economy. A product used for years - and than re-used again.

Each crisis contains the chance to show us something positive - and to find that out is a piece of happiness!

All is connected with each other.

Only together we can solve complex challenges.

The purpos which drives our international team is to creat with you the „sustainable“ furniture of the future!

The window for change was never open like now.

This is a time of great opportunity!

Warmly welcome in the here and now!

Welcome home!

Living is giving.

If you only knew the power of generosity you would not go a single day without sharing. The most powerful thing to share is not a physical thing - but your presence!
